

	EKG	CBC	Basic Meta	K ⁺	HCT	INR	COAGS	CXR	SSI	PREG	T&S
Inpatients	A₁	A	A						as indicated		as indicated
PAT labs for Major Procedures	A	A	A						as indicated		A
PAT labs for Intermediate Procedures	B	B	B						as indicated		
PAA POC Labs - all procedures				C₁	C₂	C₃				per protocol	
Bleeding disorder or advanced hepatic disease		A₂				A₂	A₂				
New findings in PAT: tachycardia, arrhythmia, murmur	A	A	A								
New findings in PAT: DOE, SOB, RA SaO ₂ < 95, abnormal auscultation	A	A	A					A₂			

A = All patients

A₁ = All patients 60 years and older or having major procedure

A₂ = All patients having major or intermediate procedure

B = All patients with positive screening

C₁ = All dialysis patients on admit

C₂ = All GYN patients on admit if no recent value. Not required for TL

C₃ = All Coumdain patients on admit

No PAT labs for **Minor** procedures unless ordered by surgeon

Minor procedures may still require PAA POC labs

Positive screen

- Heart disease
- Lung disease (other than asthma)
- CVA, TIA, Seizure, other neurologic condition
- CKD, Renal failure
- Liver disease
- IDDM
- Cancer (other than skin)
- Bleeding or blood disorders
- BMI ≥ 40
- Age ≥ 70
